β300 Drop-Thru Mold Bundle

Create a Dramatic Footed Vase using this 3-Piece Drop-Thru Mold that Automatically Aligns the Drop to the Center of a Wine-Glass Style Foot

This innovative Drop-Thru Mold Forming System enables fusers to create a delicate vase shape in a kiln that is remarkably similar to vessels made using traditional glass blowing techniques. This mold system consists of 3 ceramic components:

- The C100 Foot Casting Mold, used to create a 2 7/8" (7.3 cm) diameter x 1/4" (64 mm) thick cast glass foot disk using our 'Scrap Casting' technique.
- The DT305 Fluted Drop-Thru Ring to shape the vase and guide the drop onto the cast foot disk.
- The DT300 Tripod Base to support the Drop-Thru Ring while holding and centering the cast foot disk.

Bundle Package contains:

- **DT300 Tripod Base**
- **C100 Foot Casting Mold**
- **DT305 Fluted Drop-Thru Ring**
- **4 page Instructional Booklet**

Suggested retail price: \$159.95 (US)

Height Adjustable: Turn the ring 1/3 of a revolution to re-position it at 3 different levels to create 3 distinct Drop-Thru vase heights.

- Highest Position - Creates a vase 4 5/8" (11.7 cm) High
- Middle Position - Creates a vase 4 1/8" (10.5 cm) High
- Lowest Position - Creates a vase 3 1/2" (9 cm) High
