## **M35 Starfire Drape Mold**

**As featured on page 35 in the book - Joy of Fusing**

The M35 Starfire Drape Mold enables fusers to create a shape that is very reminiscent of a blown glass vessel. The unconventional shape of this draping mold produces a surprisingly large bowl with six gentle waves that ripple around the perimeter. This mold is packed for retail display in a crisp white box with a color label. The package includes the ceramic mold plus a 12-page color booklet with information for mold preparation and placement, step-by-step instructions for one complete project and a photo gallery featuring additional innovative bowl designs.

The mold is 12" (30.5 cm) by 4" (10.2 cm) high and can be used in most medium-sized kilns with a firing chamber that is at least 13" (33 cm) in diameter (or square) and 5 1/2" (14 cm) high.

Then take the blown-glass effect to the next level by adding a stemmed foot using our C105 Circle Foot Casting Mold and our F500 Stackable Fusing Foot Rings to shape the foot and fuse it to a bowl during a standard drape-form firing schedule (see Graffiti Bowl project below).

Hot Fritage Bowl with Black Border  
Size: 9" x 4" (23 x 10 cm)

Graffiti Bowl with Stemmed Foot  
Size: 10 3/4" x 5" (27 x 13 cm)

Blocks and Threads Oval Bowl  
10 5/8" x 7 1/2" x 4" (27 x 19 x 10 cm)

**Suggested retail price: \$79.95 (US) - Available Now**

**Wardell Products P.O. Box 480069, Fort Lauderdale, FL 33348-0069**
